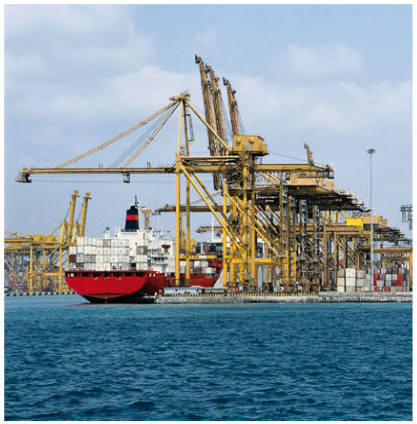
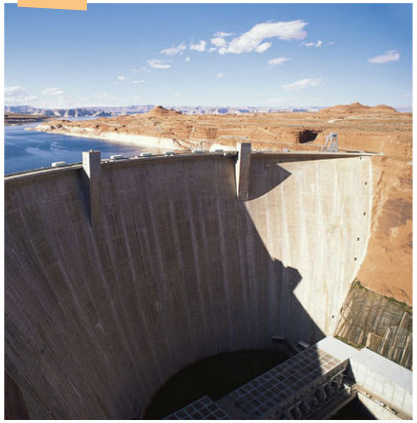
RAIF

Rising Africa Infrastructure Fund

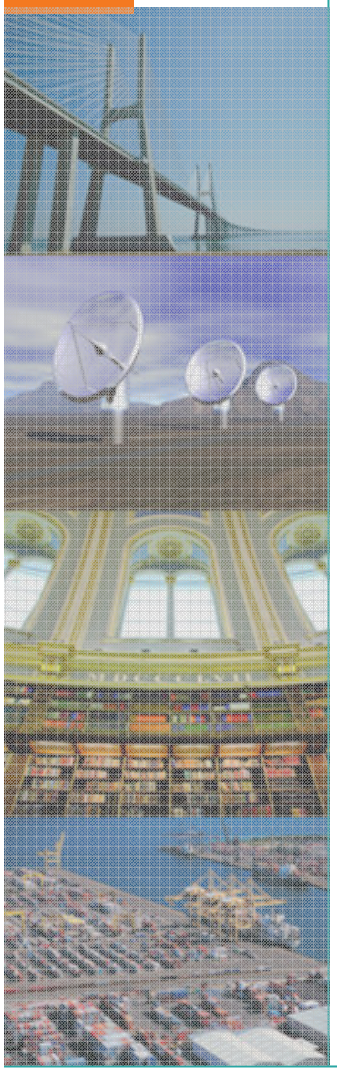
AIC Presentation

7th Session – Discussion Panel and Closure



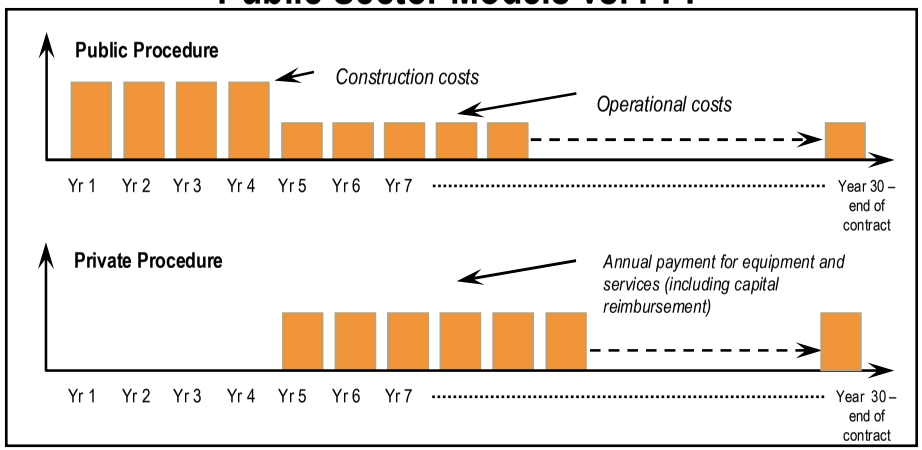


How can the Public Sector decide whether the partnership is a good project?



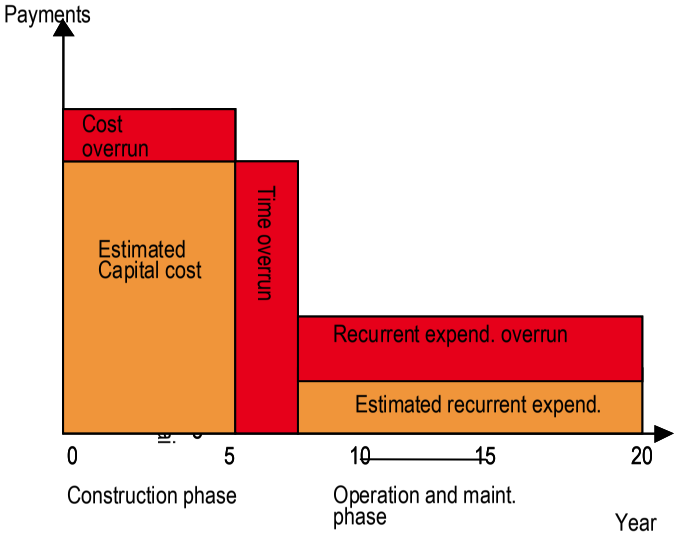
- Undertake comparative studies on various methods
- Finalize a risk management matrix
- Test "value for money"
- Conduct supply bid simulations

Public Sector Models vs. PPP



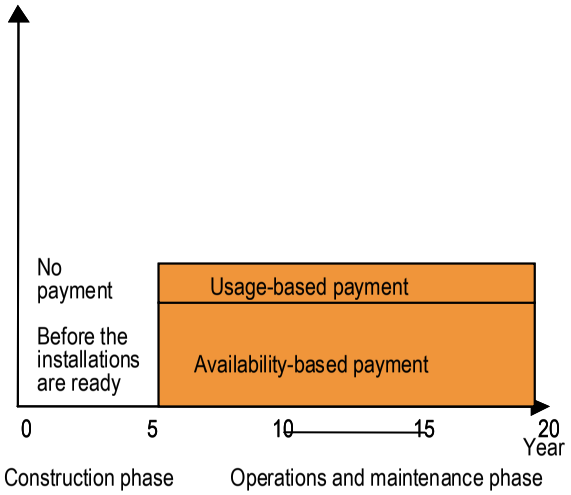
Classic supply

The payment profile can be described as follows



Supply according to PPP

Public sector payment profile:



Greenfield PPP Infrastructure Financing
