

EU-Africa Infrastructure Trust Fund

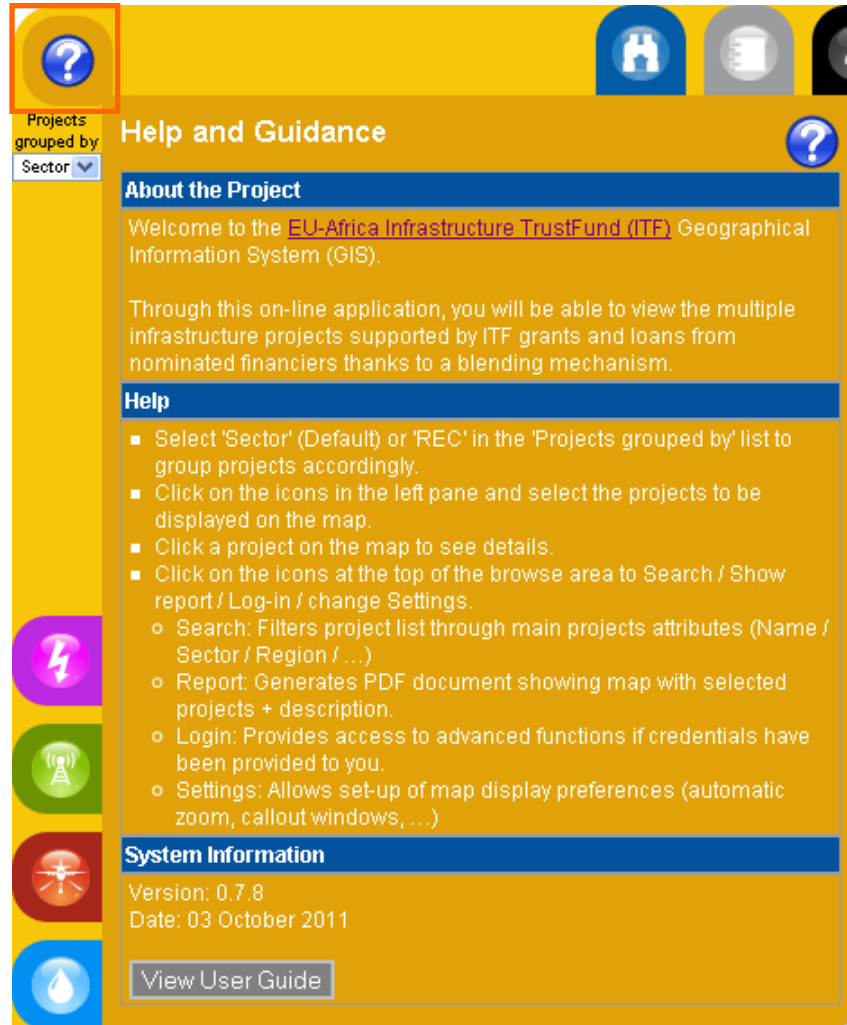

Geographical Information System (offline demo)

Main screen

Help and guidance

The screenshot shows the 'Help and Guidance' page of the EU-Africa Infrastructure TrustFund (ITF) Geographical Information System (GIS). The page is titled 'Help and Guidance' and features a blue header bar with a question mark icon. The main content area is yellow and contains the following sections:

- About the Project**

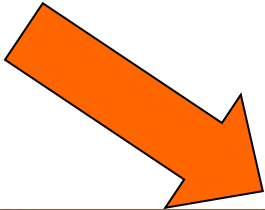

Welcome to the [EU-Africa Infrastructure TrustFund \(ITF\)](#) Geographical Information System (GIS).

Through this on-line application, you will be able to view the multiple infrastructure projects supported by ITF grants and loans from nominated financiers thanks to a blending mechanism.
- Help**
 - Select 'Sector' (Default) or 'REC' in the 'Projects grouped by' list to group projects accordingly.
 - Click on the icons in the left pane and select the projects to be displayed on the map.
 - Click a project on the map to see details.
 - Click on the icons at the top of the browse area to Search / Show report / Log-in / change Settings.
 - Search: Filters project list through main projects attributes (Name / Sector / Region / ...)
 - Report: Generates PDF document showing map with selected projects + description.
 - Login: Provides access to advanced functions if credentials have been provided to you.
 - Settings: Allows set-up of map display preferences (automatic zoom, callout windows, ...)
- System Information**

Version: 0.7.8
Date: 03 October 2011

A 'View User Guide' button is located at the bottom of the page.

Toolbar

The image shows a web-based map interface. At the top, there is a yellow toolbar containing several icons: a question mark, a home icon, a search icon, a user profile icon, and a refresh icon. To the right of the toolbar are logos for the European Union and the African Infrastructure Trust Fund, along with 'Map' and 'Satellite' buttons. On the left side, there is a vertical sidebar with a search bar and several colored circular icons (purple, green, red, blue, black). The main area of the image is a world map with country names in various languages, including English, German, and Chinese. The map is centered on Europe and Africa. At the bottom left, the Google logo is visible, and at the bottom right, there is a copyright notice: 'Map data ©2011 Deocette Consulting, Tele Atlas'.

Projects list

- Projects list for “Energy” sector

The screenshot shows a web application interface for the Energy sector. The top navigation bar includes a search icon, a home icon, a user profile icon, and a currency icon. The main content area is titled "Energy" and features a "General Information" section describing power generation plants and power transmission. Below this is a "Projects" table with columns for Category, Code, and Name. The table lists several approved projects, including power rehabilitation, interconnectors, and hydroelectric plants. A sidebar on the left contains icons for various sectors, with the Energy icon highlighted.

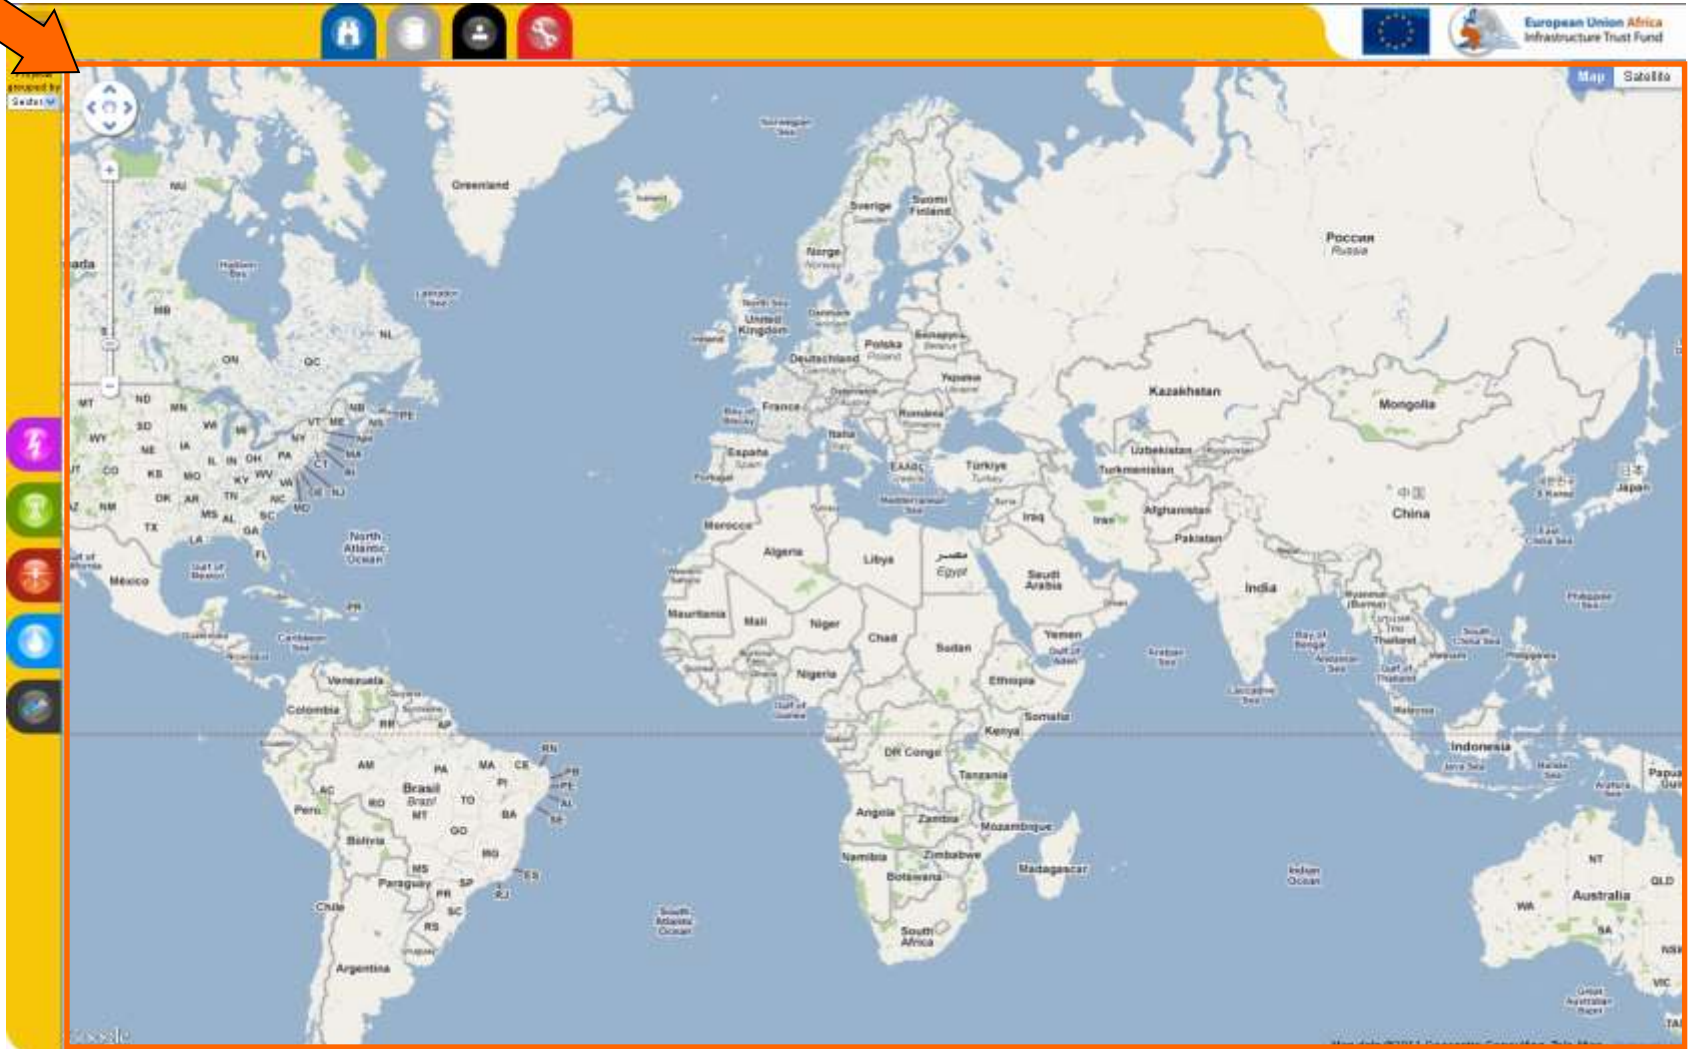

Category	Code	Name
Approved	2009/36	Benin - Togo Power Rehabilitation
Approved	2008/01	Cape Intercorridor
Approved	2007/05	CLSS Interconnection Project
Approved	2006/03	ECOWAS Electricity Regulator
Approved	2007/04	Ethiopia-Kenya Intercorridor
Approved	2010/01	Facilitating energy transition in East Africa through environmental lines of credit to local banks
Approved	2007/03	Felix
Approved	2009/24	Kibuye-Goma-Bwamba Intercorridor
Approved	2010/09	Lower Orange River Hydro Electricity Power Scheme (LORHPS)
Approved	2010/02	Mount Coffee Hydropower Plant

- Projects list for “COMESA” REC

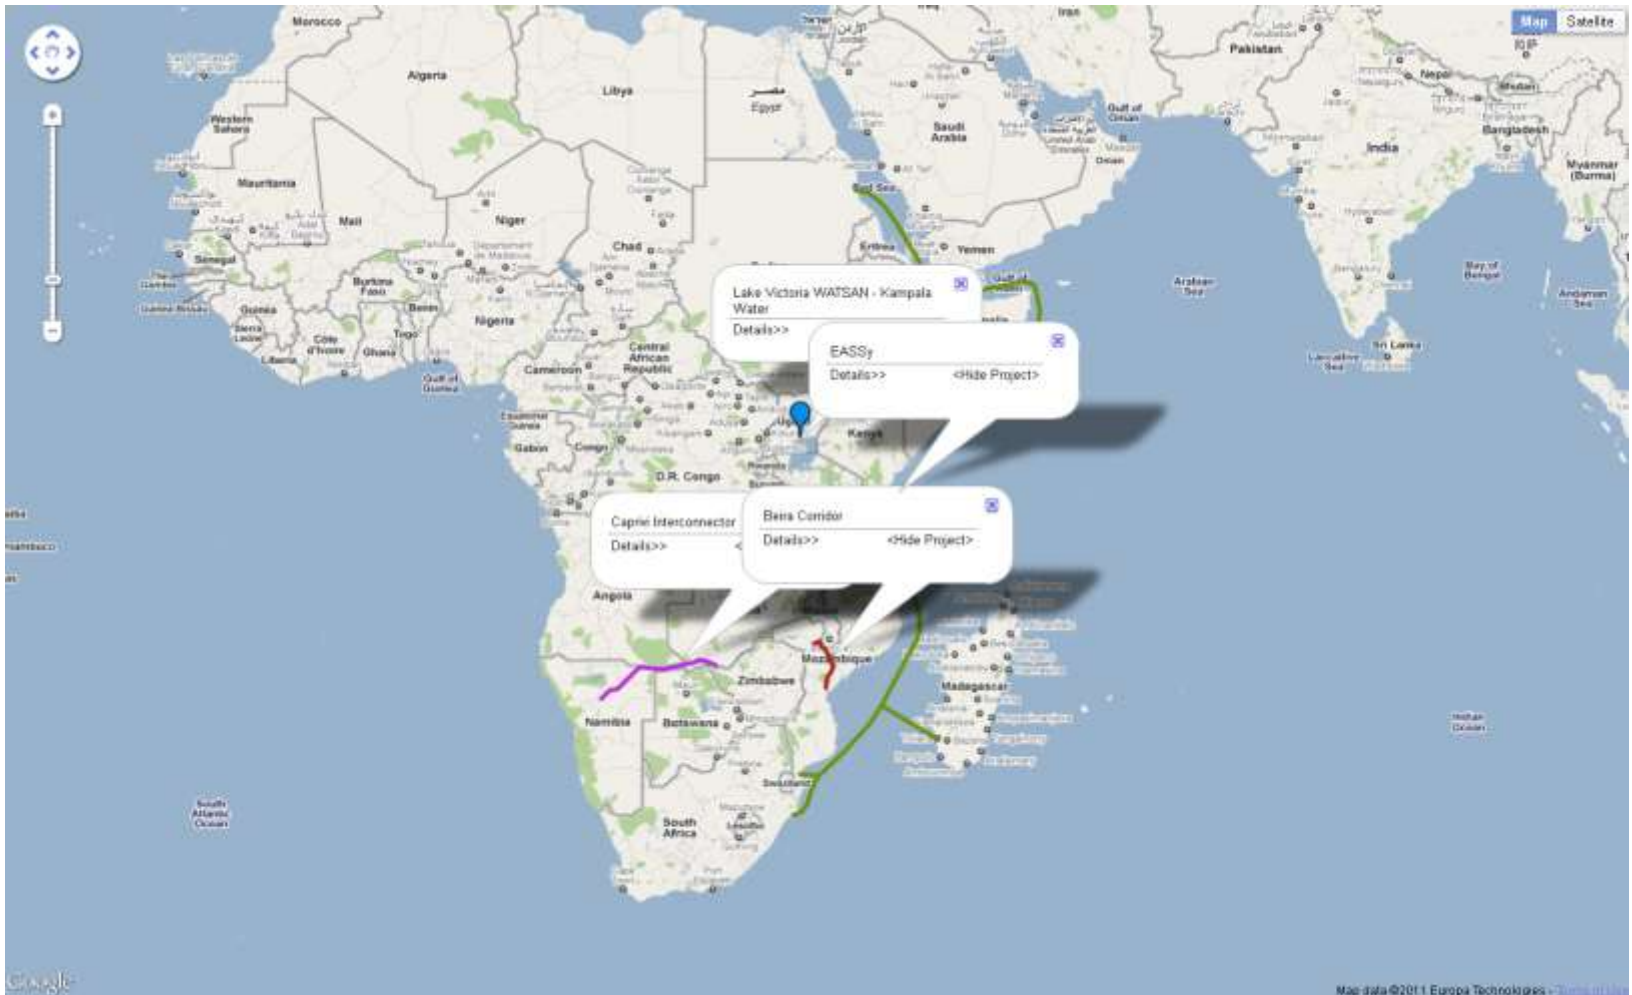

The screenshot shows a web application interface for the Common Market for Eastern and Southern Africa (COMESA). The top navigation bar is identical to the Energy sector interface. The main content area is titled "Common Market for Eastern and Southern Africa (COMESA)" and features a "General Information" section listing member countries. Below this is a "Projects" table with columns for Category, Code, and Name. The table lists several approved projects, including a canal, interconnectors, an airport extension, and water projects. A sidebar on the left contains icons for various sectors, with the COMESA icon highlighted.

Category	Code	Name
Approved	2008/04	Baya Canal
Approved	2008/01	Cape Intercorridor
Approved	2007/04	Ethiopia-Kenya Intercorridor
Approved	2010/01	Facilitating energy transition in East Africa through environmental lines of credit to local banks
Approved	2009/61	Jomo Kenyatta International Airport Extension
Approved	2009/24	Kibuye-Goma-Bwamba Intercorridor
Approved	2010/07	Lake Victoria WATSAN - Kampala Water
Approved	2007/01	Port de Pointe Noire
Approved	2009/09	Rehabilitation of the Great East Road
Approved	2008/02	Rabat

Reporting

- The report function is now fully operational:

EU-Africa Infrastructure Trust Fund Geographical Information System

Benin - Togo Power Rehabilitation

Short Description:
Benin - Togo Power Rehabilitation
Status: Active
Sector: Energy
Estimated Cost: EUR 73 200 000
Benin-Togo Power Rehabilitation
Type: IRS
Grant Status: Approved
Amount: EUR 12 250 000

EASSy

Short Description:
Fibre optic submarine cable along the East African coast
Status: Active
Sector: ICT
Estimated Cost: EUR 201 000 000
Technical Assistance for EASSy
Type: TA
Grant Status: Fully Disbursed
Amount: EUR 2 600 000

Expansion of Port of Walvis Bay

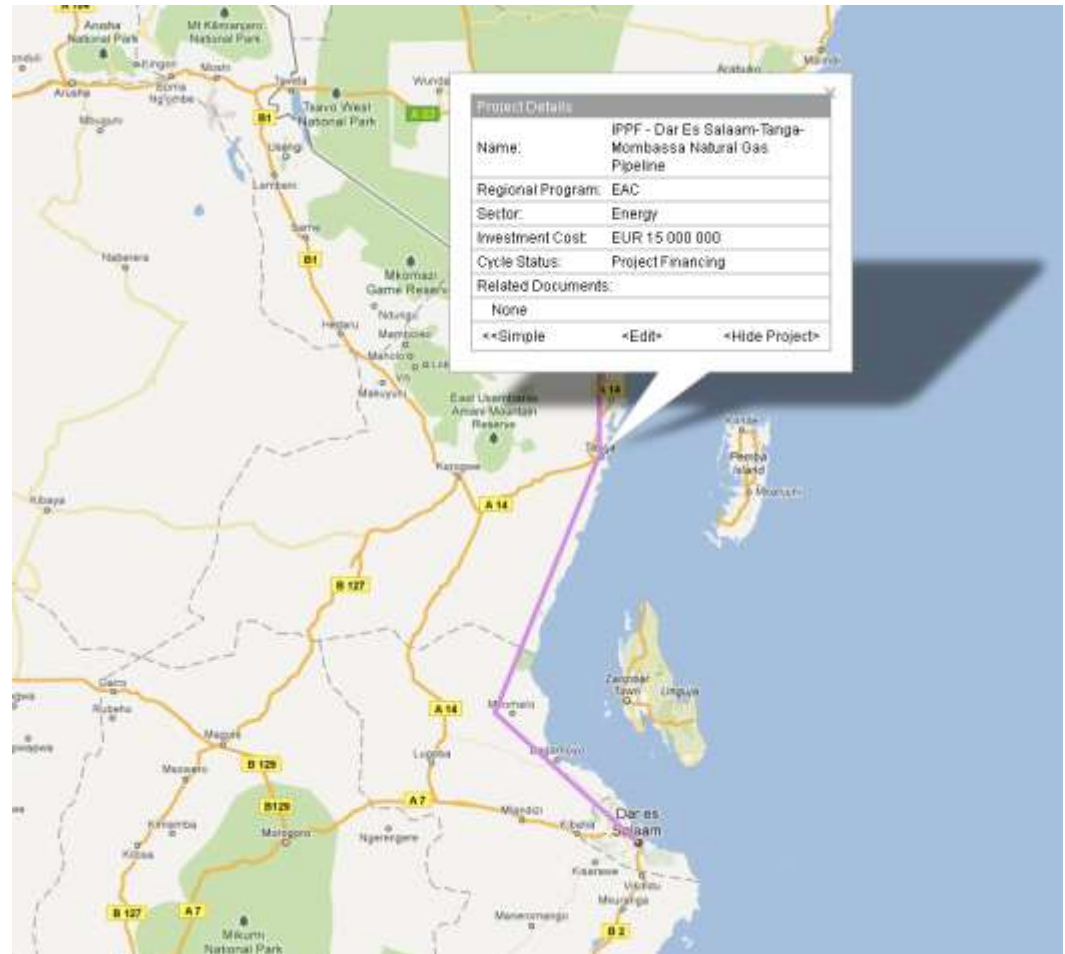

Short Description:
construction of a new and upgrading of the existing container terminal of the Port of Walvis Bay
Status: Active
Sector: Transport
Estimated Cost: EUR 200 000 000
Expansion of Port of Walvis Bay TA
Type: TA
Grant Status: Approved
Amount: EUR 450 000

Current initiatives

- Started active cooperation with the AfDB NEPAD-Infrastructure Project Preparation Facility (IPPF).
 - Target: share IPPF project pipeline with ITF for eligible projects.
 - How: use the GIS as communication platform.
 - Where we stand: training on project input provided 04 Nov 2011

Project generated during training

IPPF – Dar Es Salaam – Tanga – Mombassa
natural gas pipeline

Improvements under way

- In the context of the IPPF pipeline sharing with the ITF, a requirement for new functionalities has been submitted:
 - Improvements in the project data entry form
 - New functionality to download data from the GIS to the ITF Project Management Tool database.
